De Santis Odabash

### FUNFACT

I have a hobby where I go magnet fishing in lakes and canals, looking for metals and long lost treasures. I taught Henry Dudson how to magnet fish while working on a placement for him!

### FUNFACT

I created a series of abstract paintings about boys that I liked and didn't like. The titles are their names... Anagrammed!

### FUNFACT

I've only been to the hairdresser twice in my life. My mother still cuts my hair.

### ABOUT ME

I am a London raised and based artist, currently studying at Camberswell College of Arts. I always had an adoration for the entire process of collage and also with buying second hand books including large imagery, ranging from landscapes to people, dating around the 70s or earlier.
